JUL 16 2012

Subject: Product Name: Moss Control Plus Lawn Fertilizer
EPA Reg. No. 538-223
Label Notification per PRN 98-10
Application Dated: June 8, 2012

- Proposed Alternate Brand Names:
- Snap Pac Lawn Food plus Moss Control
 - Snap Pac Moss Control with Lawn Food
 - Snap Pac Moss Control plus Lawn Food
 - Snap Pac Moss Control Granules for Lawns
 - Snap Pac Moss-B-Gon Granules for Lawns
 - Snap Pac Moss Control for Lawns

Dear Ms. McLaughlin,

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for Moss Control Plus Lawn Fertilizer (EPA Reg. No. 538-223) dated June 8, 2012. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please contact Emily Hartman via email at hartman.emily@epa.gov or by phone at (703) 347-0189.

Sincerely,

Kathryn V. Montague, Project Manager 23
Herbicide Division

Subject: Notification of General Label Revisions per PR Notice 98-10
EPA Reg. No. 538-223 – Moss Control Plus Lawn Fertilizer

Dear Ms. Montague,

The Scotts Company (Scotts, EPA Company Number 538) is submitting a revised label for Moss Control Plus Lawn Fertilizer, EPA Reg. No. 538-223 with the addition of six Alternate Brand Names.

Enclosed please find the following documents to support this request:

- One (1) copy of Application form (EPA Form No. 8570-1)
- Two (2) copies of the updated Master Label: one (1) with changes highlighted in yellow and one (1) clean copy.

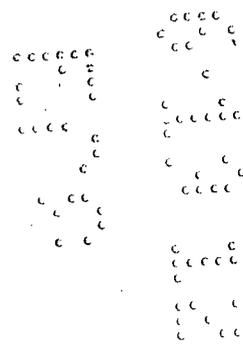

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR §152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR §152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under section 12 and 14 of FIFRA.

If you have any questions regarding this submission, please contact me at 937-578-5703.

Best Regards,

Jessica McLaughlin
Analyst, Regulatory Affairs

[First Aid and Environmental Information]

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS [icon]

CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

FIRST AID [first aid icon]

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If swallowed: Call A poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment. You may also contact 1-800-XXX-XXXX for emergency medical treatment information.

ENVIRONMENTAL HAZARDS

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn will help to prevent runoff to water bodies or drainage systems.

-BEGIN DIRECTIONS FOR USE-

- [Key Product Facts]**
- [How and when to apply]**
- [Instructions]**
- [Application]**

Directions for use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

Option 1

When to use

- Apply anytime moss is present and actively growing.
- Apply when the grass blades and moss are wet.

With other products

- Does not interfere with the performance of other lawn products such as fertilizers, weed controls and insect controls.
- Allow at least one-week before applying other products in the lawn.

With new lawns or seeding

- Areas can be seeded after one-week following treatment. For best results wait until moss is dead (approximately 2-weeks), then rake-up area and reseed.

Reapplication

- This product does not prevent moss. Reapply as new moss develops.
- Wait 2 to 4 weeks between applications

Reentry

For best results, avoid disturbing particles by keeping children and pets off of treated area until foliage is dry.

Instructions

1. Mowing
 - If grass is tall enough to touch the bottom of the spreader, mow before application.
 - Mow tall grass a day or two before application to expose low growing moss.
2. How to apply

Apply when the grass blades are wet with a drop or rotary spreader. Do not apply by hand or hand-held spreader. For best results, use a Scotts Spreader
3. Set spreader
 - Use the REGULAR RATE for normal moss infestation
 - Use the HEAVY RATE for heavy moss infestation
4. Fill spreader
 - Fill spreader over bare ground or hard surface.
 - Sweep or brush any particles off of hard surfaces and use on lawn or dispose of properly.
5. Apply Product
 - Apply one or two header strips, then apply product in longest direction of lawn.
 - Shut off spreader each time you reach the header strip, or stop.
 - **This product can cause staining**
 - Do not apply to cement, stone, clothing or shoes.
 - If contact occurs, brush off particles to prevent staining.
6. Watering
 - Do not water-in after application.

8/24

NOTE:

EPA Reg. No. 538-223

Bold, italicized text is information for the reader and is not part of the label.
[Bracketed information is optional text]. Text separated by "/" denotes and/or options.

- Light rain, snow or freezing weather after application will not affect product performance. Heavy precipitation of 1/2" or more may reduce effectiveness and require a second application

End of Option 1

Option 2

Apply during winter or spring when moss is actively growing.

-OR-

Apply during winter through early spring [(February – April) or (December – April)] when moss is actively growing.)

It is best to apply when the lawn is moist and tall grass has been mowed to expose low growing moss. Use the **REGULAR RATE** (covers 5,000 sq. ft.) for normal moss infestations. Use the **HEAVY RATE** (covers 4,000 sq. ft.) for heavy moss infestations.

[Use Precautions]

- Wait 2 to 4 weeks between applications.
- Brush or rinse particles from cement, stone, clothing, or shoes to prevent staining.
- Grass blades may show a temporarily black color, [however/but], this condition will disappear after mowing.

The moss will turn black and eventually disappear. **Note to PM: Optional Claim**

The fertilizer in Moss Control Plus Lawn Fertilizer will help make your lawn thick and green. **Note to PM: Optional Claim**

End of Option 2

Option 3 – Quick Start Guide

Note to PM: When the "Quick Start Guide" Directions for Use are used on the FPL the product will only be applied at the Regular Rate.

Scotts – Quick Start Guide

[You're just three/four [simple] steps away from a beautiful Scotts lawn!]

[Icon – Spreader Dial]

[1.] Fill & Set Spreader

[Icon – Broadcast / Rotary Spreader]

Scotts Broadcast / Rotary Spreaders [x]

[Icon – Drop Spreader]

Scotts Drop Spreaders [x]

[This package applies 5.0 pounds of product per 1000 sq ft]

[Covers 5,000 sq ft]

[Scotts products are designed to work with Scotts spreaders]

[For additional spreader settings, [please] call **Insert Company Phone Number**]

[Icon – Spreader / Lawn]

[2.] Apply

Best applied when lawn is moist and tall grass has been mowed to expose low growing moss.

For even application walk at a steady pace slightly overlapping each pass.

Scotts Drop Spreaders: Align hopper arrow with previous wheel track.

Scotts Broadcast / Rotary Spreaders: Line up each pass approximately 5 ft from wheel track.

Other Things You Need To Know

- Apply during winter or spring when moss is actively growing.
- Wait 2 to 4 weeks between applications.
- Grass blades may turn black temporarily, however this condition will disappear after mowing.

End of Option 3

Option 4 – SNAP Spreader Application

Note to PM: When the "SNAP Spreader Application" Directions for Use are used on the FPL the product will only be applied at the Regular Rate.

Use Precautions

- For best results, avoid disturbing particles by keeping people and pets off of treated area until foliage is dry.
- Areas can be seeded after one-week following treatment. For best results wait until moss is dead (approximately 2-weeks), then rake-up area and reseed.
- Wait 2 to 4 weeks between applications

When to Apply

- Apply during winter or spring when moss is actively growing.
- Apply when the grass blades are wet.

How to Apply

- If grass is tall enough to touch the bottom of the spreader, mow before application.
- If mowing is necessary, re-wet grass prior to application.
- Do not water-in after application.

End of Option 4

Because of the SNAP Spreader Application system, spreader settings are not required on the SNAP Pac final printed label.

Spreader Setting Information

TIPS ON SPREADING WITH SCOTTS SPREADERS

Insert Brand Name of Drop Spreader:

- First apply 2 header strips
- Operate spreader the longest way of the lawn
- Overlap wheels to insure uniform feeding
- Shut off spreader when you have reached the header strips or stopped

[EasyGreen® Rotary:

- Slide shut-off lever to the right, application automatically starts and stops when you do
- Avoid misses by making each pass about 30 inches from the previous one so some overlapping occurs]

Insert Brand Name of Broadcast / Rotary Spreader:

- Shut off spreader anytime you stop
- Avoid misses by making each pass about 5 feet from the previous one so some overlapping occurs

SPREADER SETTINGS: For best results, use a Scotts spreader.

(Scotts Spreader Settings)

Claims regarding "What to expect"

- What to Expect
- Moss will turn black and eventually disappear
- Grass blades may show a temporary black color, however, this condition will grow-out and disappear after mowing

Claims regarding the Fertilizer Properties

- POLY-S™ TECHNOLOGY
- Scotts® slow-release polymer-encapsulated nitrogen fertilizer—for uniform growth with extended feeding
- POLY-S™ TECHNOLOGY POLYMER ENCAPSULATED NITROGEN
- Builds thick, green turf from the roots up [without burning your lawn]
- Timed-release nitrogen won't burn your lawn or cause surge growth
- Supplies four nutrients to help your lawn (16% potassium, 5% iron, 20% sulfur, and 8% magnesium)
- Contains Poly-S™ exclusive controlled-release nitrogen
- For best results, apply [a] Turf Builder® [product] four times a year (see back for details)
- Patented Particle Technology
- Supplies added nutrients to help your lawn
- Can be used [applied] alone, or [in conjunction] with other [lawn] products
- Controls major moss problems without promoting grass growth.
- Won't burn lawn – guaranteed
- Apply anytime moss is growing

NOTE:

Bold, italicized text is information for the reader and is not part of the label.
[Bracketed information is optional text]. Text separated by "/" denotes and/or options.

- Contains added nutrients to strengthen and green your lawn
- Feeds and thickens the grass
- Scotts Technology
- Moss Control Plus Lawn Fertilizer granules are consistent in size and shape – [Result: consistent distribution of nutrients and moss control]
- Moss Control Plus Lawn Fertilizer particles deliver the same ratio of primary nutrients plus moss control to every square inch of turf – [Result: Consistent greening plus better moss control]
- [Icon – spread patterns of Scotts products]
- Moss Control Plus Lawn Fertilizer contains – Scotts patented timed-release nitrogen, [phosphorus], potassium and moss control
- Moss Control Plus Lawn Fertilizer particles deliver the same ratio of nitrogen, [phosphorus], potassium and moss control to every square inch of turf for even, consistent feeding plus moss control
- [Where to use –] For use on all lawns and grass types

Claims regarding Water Smart

- [Watersmart®] Makes the Most of every drop™ [Icon]
- Water Smart [icon of water drop]
- [Water Smart] Improves Lawn's ability to absorb water & nutrients [than an unfed lawn]
- Well-fed lawns are more efficient at using available water
- Feeding with Scotts® fertilizer / lawn food helps grow / build a thick lawn with more roots to better absorb water and nutrients than an unfed lawn. This helps protect your lawn against heat, drought and other stresses.

Claims regarding Packaging

- Easy open, resealable [bag], easy close
- Easy Open – PULL HERE

- Your hands don't have to touch the fertilizer / product
- Lawn Care without the Mess and Guesswork
- Takes the Mess and Guesswork out of lawn care / caring for your lawn

Now it's easy for you to have a better lawn.

[Save money – Why even consider a lawn care service? Scotts Annual Program will give you a beautiful lawn for about half / one third the cost.]

Simple and easy – No more guesswork. You simply apply the right product - one Step at a time.

Start anytime – You can start the Annual Program anytime of the year. Just check the month and select the appropriate Step listed below. If weeds or bugs are not a problem, substitute [**Insert name of straight fertilizer**] [up to 4 times per year].

Guaranteed results – Each Step is designed for the specific season to help give you a greener lawn.

The 4 Steps listed below will be placed horizontally in one row.

Step™1. Early Spring [Icon**]**
February –April

If moss is a problem use [Moss Control Plus Lawn Fertilizer] / [**Insert Scotts Product Name**] – controls unsightly moss while providing deep, thick greening for up to 2 months. For St. Augustinegrass, Step™1 is "Super Bonus S".

Step™2 Late Spring [Icon**]**
April – June

If weeds are a problem use [Weed Control plus Fertilizer] / [**Insert Scotts Product Name**] – controls broadleaf weed while greening your lawn for up to 2 more months. This is Scotts best weed and feed. For St. Augustinegrass, Step™2 is "Super Turf Builder."

Step™3 Summer [Icon**]**
June – August

[Turf Builder Lawn Food] / [**Insert Scotts Product Name**] – feeds and strengthens to help protect against future problems.

Step™4 Fall [Icon**]**
August – November

[Lawn Fertilizer] / [**Insert Scotts Product Name**] – specially formulated for the Fall – the best time to develop a stronger root system for a more vigorous, thicker lawn. Helps your lawn green-up even quicker next Spring. This is Scotts best fall fertilizer.

-OR-

Scotts Recommended Feeding Routine
Plan your feeding with Scotts Turf Builder Lawn Food

[Icon** – Early Spring]**

Early Spring
An early spring feeding helps grass green-up after the winter. You should feed around the first time you mow your grass.

[Icon** – Late Spring]**

Late Spring
Feeding now prepares grass for summer stress by thickening the blades on top and building deep roots below.

[Icon – Early Fall]

Early Fall

An early fall feeding replenishes the nutrients lost in the harsh summer months for quicker recovery. You should feed when your grass comes out of dormancy.

[Icon – Late Fall]

Late Fall

Late fall is the best time to feed because it builds strong deep roots and prepares grass for winter. You should feed when all the leaves have fallen.

Scotts® Turf Builder® Annual Program

- No more guesswork...apply the right product at the right time for a thick, green lawn
- Start anytime...just check the month and apply products at 2 month intervals. If weeds or bugs are not a problem, substitute (*insert name of fertilizer only*) [up to 4 times per year].

(The four products listed below will be placed horizontally in one row.)

[Scotts® Turf Builder®] / [*Insert Scotts Product Name*] – Early Spring (Feb-April) Prevents crabgrass and other annual weeds while feeding your lawn. (In the Pacific Northwest, substitute [Moss Control Plus Lawn Fertilizer] / [*Insert Scotts Product Name*]. For St. Augustinegrass, substitute Bonus S®. For dormant bermudagrass, substitute Halts®.)

[Scotts® Turf Builder® with Plus 2® Weed Control] / [*Insert Scotts Product Name*] – Late Spring (April-June) Kills dandelions and other broadleaf weeds while feeding your lawn. (For St. Augustinegrass, substitute Turf Builder.)

[Scotts Turf Builder Lawn Food] / [*Insert Scotts Product Name*] – Summer (June-Aug) Feeds and strengthens to help protect against future problems. For grub control, apply [Scotts® GrubEx®] / [*Insert Scotts Product Name*] anytime from April to mid-August.

[Scotts® Turf Builder® Lawn Fertilizer] / [*Insert Scotts Product Name*] – Fall (Aug-Nov) Important time to feed for a thicker, greener lawn.

-OR-

Use Any of These Products Next to Keep Your Lawn Looking Great All Season!

Anytime

[Icon – straight fertilizer bag] Use anytime if weeds or insects are not a problem.

Late Spring

[Icon – broadleaf weed killer bag] Use to kill broadleaf weeds and build a thicker, greener lawn.

Summer

[Icon – lawn insect killer bag] Use to kill insects and strengthen your lawn against heat and drought

-OR-

CONTROLS MOSS

What to expect

Each uniform granule in this bag contains the necessary active ingredient to control the moss in your lawn [as well as Turf Builder fertilizer to help make your lawn thick and green]. Each moss plant in your lawn will get thoroughly coated to assure a complete effective control. The moss will turn black and eventually disappear. [This product controls only existing moss. To prevent moss from becoming established during

Scotts & Your Environment >> [Icon – Scotts]

We care.

Scotts products are designed with care to grow a thicker, greener lawn.

[Because] A Green Lawn is a Good Lawn

A healthy lawn can clean the air, produce oxygen and prevent runoff and soil erosion.

You can make a difference.

Help keep our water resources clean. Apply this product only to your lawn, and sweep any product that lands in the driveway, sidewalk or street back onto your lawn.

-OR-

Scotts LawnCare Tips

The best moss prevention begins with a complete lawn care program:

- Feeding your lawn regularly using Scotts Annual Lawn Care Program helps the lawn to crowd out moss, making it difficult for it to establish
- Mow your lawn at the recommended height.

-OR-

Tips for Lawncare Success:

[Icon: granules falling on grass] Feed Regularly

Regular feedings provide the nutrients your lawn needs to look its best and withstand the stresses of weeds, heat, drought & family activity

Benefits of Multiple Feedings / Benefits of Turf Builder Feeding Routine

[Icon: 1 annual feeding] one annual feeding – [Icon: 2-3 annual feedings] 2-3 annual feedings – [Icon: 4 annual feedings] 4 annual feedings

[Icon: lawn mower / grass clippings] Mow and Leave the Grass Clippings on Your Lawn

Mowing high allows the grass to develop a deep root system & helps your lawn use water more effectively. Grass clippings recycle the plant nutrients back into the soil.

20/24

[Icon: Water Smart™][Water Smart Makes The Most Of Every Drop™] Conserve Water

Well-fed lawns are more efficient at using available water. Feeding with Scotts [fertilizer / lawn food] helps grow / build a thick lawn with more roots to better absorb water and nutrients than an unfed lawn. This helps protect your lawn against heat drought and other stresses. Remember your lawn will begin to wilt when water is needed. As much as possible take advantage of nature's sprinkler and rely on the rain to water your lawn.

-OR-

The Scotts Advantage® * [Icon – N-P-K]

Each of Scotts exclusive All-in-One Particles® * contains the guaranteed feeding nutrients and the moss control ingredients to provide consistent feeding and moss control to every treated square inch of your lawn. The result: A thick, green lawn without burning. Guaranteed.

*All-in-One Particles® = nitrogen, [phosphorus], potassium and the moss control ingredient contained in every particle.

Directions For Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Precautions

Do not apply to a newly seeded or sodded lawn until it has been mowed four times.

Brush or rinse particles from cement, stone, clothing, or shoes to prevent staining.

Grass blades may show a temporarily black color, but this condition will disappear after mowing.

PRODUCT FACTS	
COVERAGE	Treats up to 1,840 sq. ft.
WHEN AND HOW TO APPLY	Apply during winter or spring when moss is actively growing. <ul style="list-style-type: none"> It is best to apply when the lawn is moist, and tall grass has been mowed to expose low-growing moss. Use the REGULAR RATE (covers 1,840 sq. ft.) for normal moss infestation. Use the HEAVY RATE (covers 1,472 sq. ft.) for heavy moss infestation.
(graphics)	
(graphics)	
WHAT TO EXPECT	The moss will turn black and eventually disappear. This product controls only existing moss.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

CAUTION:

- Harmful if swallowed, inhaled or absorbed through skin.
- Causes moderate eye irritation.
- Avoid contact with skin, eyes or clothing.
- Avoid breathing dust.

24/24

NOTE:

EPA Reg. No. 538-223

Bold, italicized text is information for the reader and is not part of the label.

[Bracketed information is optional text]. Text separated by " / " denotes and/or options.

- Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

FIRST AID	
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If swallowed	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
Other information	
Have the product container or label with you when calling poison control center or doctor, or going for treatment. You may also contact 1-800-xxx-xxxx for emergency medical treatment information.	

ENVIRONMENTAL HAZARDS

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn will help to prevent runoff to water bodies or drainage systems.
